Point of View of an Ant

by *Lee Jin Woo*

I am an ant living dinosaur age. I feel scared because the dino might step on me.

The dinosaur might eat me if I'm in the leaves.

I love to make and eat sawdust.

The Big Dinosaur and The Little Ant

by *Stella (Korean name?)*

Once, there was a little ant. His name was Miko. Miko was the smallest in its family. There was a big dinosaur too. He was the biggest in his family. One day, Miko the ant went out for a walk. Just then, Miko met a dinosaur. The dinosaur didn't notice Miko. He tried to run away. But the dinosaur noticed him. Miko said "Help! Help!" His family heard him. They came and secretly bit the big dinosaur. The dinosaur said "ouch!". The dinosaur went to his cavern. Miko thanked his family. They went back to their burrow. In the cavern, The dinosaur was sitting and fixing his leg. Then he called his sister "sis, sis, come here and heal my wounded leg!", his sister came and said, "I don't know how to", "Are you bitten by ant?" She asked. "Yes, I am." "The ants had bitten me." His sister replied "I think you need ten ferns." He went to the jungle and gave his sister the ferns. He was better now. Now, he realized that he will never beat the ants again.

WHAT'S THE FUNNIEST EXPERIENCE YOU HAD?

by Byun Ye Ji

Have you ever had a funny experience? According to Google Dictionary, the word 'funny' means 'amusing'. Personally, I have some funny experiences. I like retelling these experiences to my close friends and my teachers. My funniest experience is when my classmate's drone crashed to my teacher's groin area.

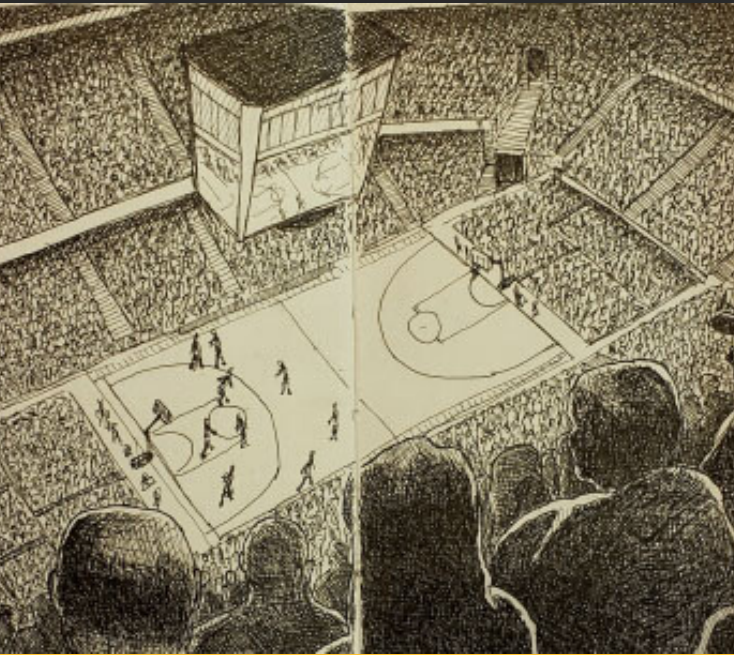

First and foremost, my classmate lost control of his drone during our class. At that time, I was in the gifted class. Usually drones hover. However his drone was broken and we don't know why. Still, drones just fly by itself. From other standpoint, the drone hit my teacher's groin area. Since, he didn't notice that the drone was coming to him.

Thereafter, he was fixing the other drone, me and my friend laughed a lot about it. After it hits him, He just picked it up and asked who was the owner.

Last but not least, we made a video about that experience. We used 'Toontastic Application' to make our video. Our teacher suggested it to us. It is an application that you can record your voice while you are moving characters. It is by touching the screen with your fingers. It was fun and realistic.

In conclusion, the funniest experience is when my classmate's drone crashed to my teacher's groin area. It start with my classmate, losing control of his drone. The it hit teacher's groin area. Finally, we made a video about that experience. How about you? Can you share your funniest experience like me?

"Swish!" The goal was made by our opponent. Their cheerful emotion was stirring inside my body.

"Fweet!" The referee blew the whistle. One quarter was over. We were absolutely losing the game. The score was 0:8. If I lose this game, I have to wait for a long time for the next basketball match.

My head was sweating, sufficient to drink. My coach gave me an advice that I have to beat in to the opponents' court more powerfully. I nodded, but I actually didn't know how to.

During the game, I realized one thing. I had to block the number 12(?), and 11(?) because only them were making points. I whispered to Ted that he should stay beneath the goal post and defense violently.

THE POINT

by Chang Min Seok

However, he didn't follow my advice until the next quarter. "Fweet!" The third quarter was over. The point was still depressing. 16:24.

I talked to all of my team members and said, "You guys should be aware of my pass. Don't be scared." I was a little angry, so I was too intense for the third quarter. I drank water and cleaned my face. I don't know what are my team members going to do, so I was still angry.

The next match began. I made a point at the first time. During the last quarter, the start was good. So I whispered to my members. "Maintain it." They nodded and suddenly became confident. We almost caught our opponents' points. The score was 25:26. The game was almost done. Only 10 seconds left, so I became intense. As a result, I finally made 2 points. We won the game. I was so happy.

The Puppies

by Lee Jin Woo

A puppy saw a pile of hay
"Arooooo!" the other puppies
say "Arooooo!" the two
puppies obey.

They found a kite.
They start to bite
When it became night

They found a new puppy.
They named it Harvey.
It was their hobby

Rainbow

by Oh Hyeon Min

I saw a rainbow
The rainbow is colorful
and lovely
The rainbow convey a lot
of emotions.
Red, passions like strong
love.
Orange, make somebody
creative and playful
Yellows, like the
sunflower, give energy
and happiness
to who ever sees it.

Green, minics the natures,
grouth witch povites health
Look at blue, and you will
feel relaxed and puts your
soul at peace
Indigo is as mysterious as
the night creatures.
And the color violet will
make you feel like king or
queen.
These are all the colors of
the rainbow.
It is "ROYGBIV" don't
forget.

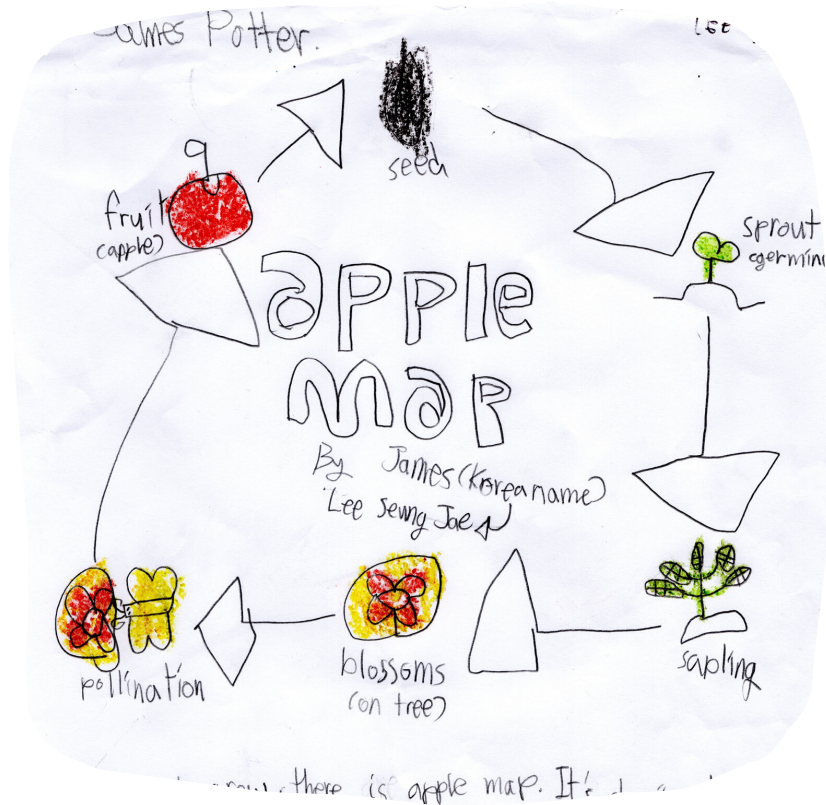

My Dad's Gift

by Lee Jin Woo

One Christmas night, my dad came to my house but I was asleep. When I woke up, my dad was still sleeping. My mom woke him up for breakfast. Then, he slept again because he's sick.

When he woke up, it was already noon. My family and I went to a restaurant to eat lunch. When the sun is high in the afternoon, He called me, and my sister. My dad asked me to close my eyes. When I opened my eyes, I saw a Nintendo in front of me. He gave me Luigi's Mansion, Yoshi's crafted world, and ring fit adventure. That was the best gift I have ever received.

APPLE MAP

by: Lee Seung Jae

In apple grow, there is an apple map. It shows how an apple grow. Do you know an apple produce seeds? The apple can make four seeds. They will sprout. And they will grow, and grow. But they need butterfly or bee. Seeds are the heart of apple. Sprout is the bone of an apple. Sapling is bland of the apple. Blossom is the skin of an apple. Pollination is the hand of an apple. Those will make an apple tree.
